Additional Information:

Information from PBC on Friday March 13<sup>th</sup>, 202 regarding their current protocol for STD claims for quarantine and how they will be handled, as follows:

1. Claims for quarantine will be assessed; if an individual has self-quarantined, we will conduct a telephone interview to understand the circumstances and motivation to support this decision.
  - a. If the member has the ability to work from home, it is expected that the employer will accommodate and therefore no benefits will be paid
  - b. If the member cannot work from home, the claim will be paid for a maximum of 14 days.
2. STD waiting period will be waived.
3. An attending physician statement will not be required to process the claim.

This situation seems to be rapidly changing. PBC will be updating their COVID-19 resource page regularly as new information rolls in (<https://www.pac.bluecross.ca/covid19> )
